Important Notes:

For All Students

1. Every separate piece of paper must be signed by your supervisor.
2. Volunteer work is not applicable to meet the field experience requirement.

Description of experience:

Minimum requirements can be met through the sum of experience at one or more institutions. To report experience at more than one institution, complete a separate form for each institution and submit all forms together.

Major responsibilities: *(Should be more professional than clerical and involve meaningful intellectual effort, such as answering reference questions, searching, cataloging, developing or maintaining systems or web sites, teaching or supervising others, budgeting, etc.)*

Developing Webpages for High Radius Marketing Systems. Working Under Manideep as an assistant developer to maintain the website and updating the content. I also designed some graphics for the websites using photoshop and illustrator when my supervisor insisted. worked under sprint methodology. I created backend for couple of website while i was working at Highradius using DotNet and PHP by learning those at the same time. Recognized as good developer in terms of working under pressure.

Other Responsibilities:

Confirmation of Experience: *(This section to be signed by employer or supervisor)*

This is to confirm that the information provided by the student is accurate. I understand that the department may contact me for further information.
